Global-scalar replacement in the fixed k=6 rating-conditioned grouped-input 3D-CNN
A Predictive performance
Full input
Training-fold class-balanced joint-CAM top-20% global-scalar replacement
CAM-top-20%-count-matched random global-scalar replacement
Atlas-defined value-related ROI global-scalar replacement
Atlas-defined occipital visual ROI global-scalar replacement
Atlas-defined value-related–occipital-visual union global-scalar replacement
0.5
0.6
Participant-level balanced accuracy
B Prespecified participant-level contrasts
Random-replacement BA − joint-CAM-replacement BA
n.s.
Full-input BA − value-ROI-replacement BA
*
Full-input BA − visual-ROI-replacement BA
n.s.
Full-input BA − union-replacement BA
